

## The Double Decker Collection

The London Routemaster

**Make** : AEC Routemaster RML

**Capacity**: Up to 72 seats

Our collection just wouldn't be complete without one. Restored in full to its London Transport livery, our bright red Routemaster displays 159 blinds as a tribute to the last Routemaster route in London all those years ago.

The vehicle is fully operational, maintained to the highest standards and available for hire. It is a particular favourite for special events, weddings and birthday treats.

Please note: this vehicle does not have fitted seat belts.
